

Steps to Log On to Pearl Official Email

Step 1:

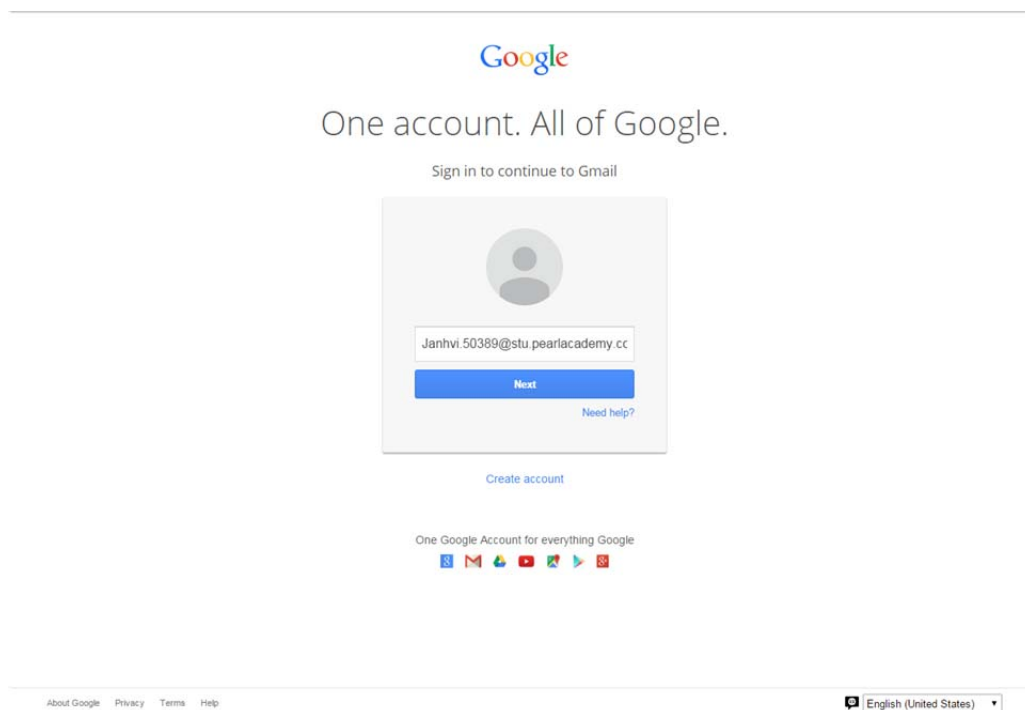

The Student Email server is powered by Google.

You need to open your web browser and type www.gmail.com

Step 2:

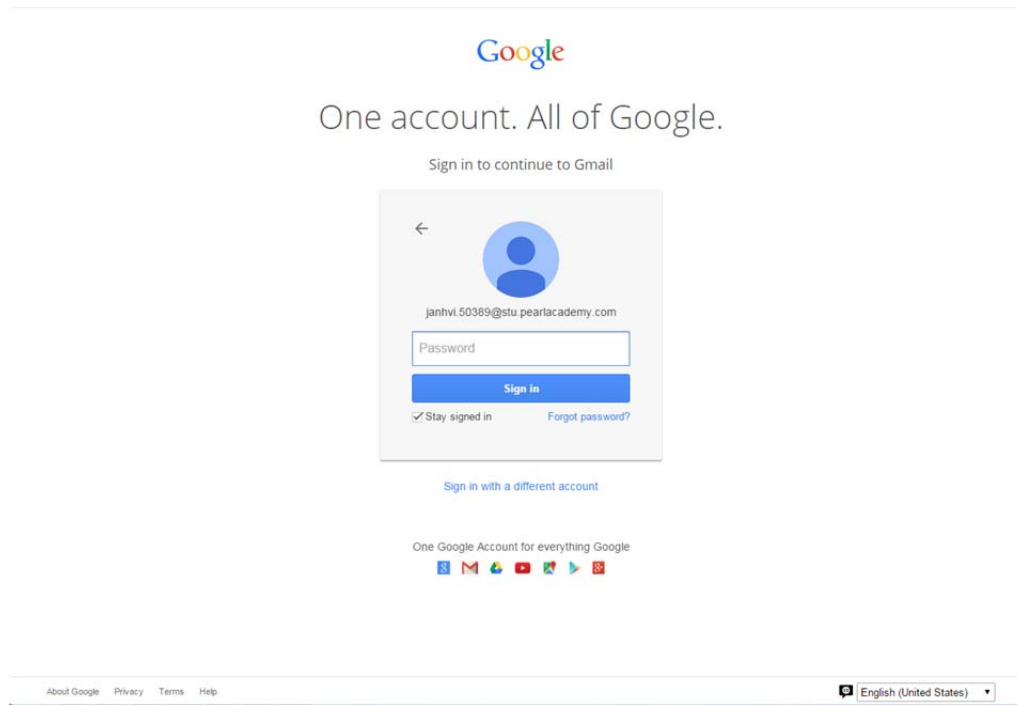

Please enter the full email address (as provided in the email) in the "User Name" and press "Next"

Steps to Log On to Pearl Official Email

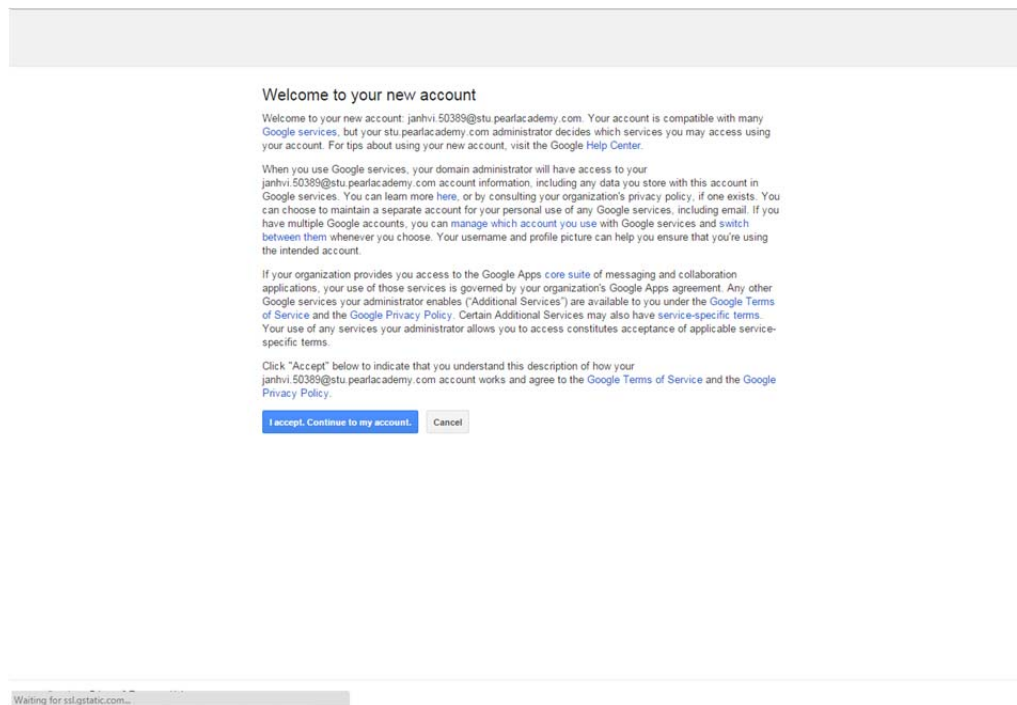

Step 3:

Provide the password (as provided in the email) in the “Password” area. This is a temporary password which Gmail will force you to change for security reasons.

Step 4:

You need to press “I accept. Continue to my account.”

Step 5:

Create a new password.

The image shows a Google dialog box titled "Please change your password". It contains the following text: "Please change your password", "Please choose a new password to finish signing in.", and "Read some tips on creating a secure password." Below the text are two input fields: "New password" and "Re-enter new password". At the bottom of the dialog is a blue button labeled "Change password".

English (United States)

Do not share the new password with anyone.

Step 6:

Voila! You are already there.

The screenshot shows a Gmail inbox for the account "janhvi.50389@stu.pearlacademy.com". The inbox contains several emails, including a "New sign-in from Chrome on Windows" from Google, an "Essay Writing Competition" from Anupama Chugh, and a "Welcome to your eLearning Platform!" from eLearning. Below the inbox is a "Setup progress" section showing 10% completion. The progress bar includes four items: "Account Created" (checked), "Learn how to use Gmail", "Set a signature", and "Change profile image". At the bottom, it says "Using 0.01 GB" and "Powered by Google".
